the B.A. and B.S. with Environmental Ethics and Environmental Policy Analysis courses. Courses in Biology; Earth and Environmental Sciences, Environmental Studies; Management, Business, and Economics; Mathematics; and Study Away constitute the major requirements for each degree.

INTERNSHIPS/RESEARCH

A career as a sustainability manager requires an individual to be very comfortable with public speaking as well as interpersonal communication. A manager of any sort, especially a sustainability manager, must also have the necessary leadership skills to e ectively supervise and guide a multitude of sta and stakeholders. Such skills sharpen through internships as well as conductint(d s)5y 9(-59)2e)T8-5ud)7(y)o2(n)2ste2(sjh)5.2(ot(d s)5.7h p).1(a)agtm8-5l a).3(er).7(each degree.)jCS0cs 1scnGS0gs1w(er)9.2ko
